Removing template package using npm...

removed 1 package, and audited 1341 packages in 4s
269 packages are looking for funding
  run 'npm fund' for details
9 vulnerabilities (3 moderate, 6 high)

To address all issues (including breaking changes), run:
  npm audit fix --force

Run 'npm audit' for details.

Success! Created studentapp at C:\Users\EXE-GURURAJA\myfirstreact\studentapp
```

```
Command Prompt

npm audit fix --force

Run 'npm audit' for details.

Success! Created studentapp at C:\Users\EXE-GURURAJA\myfirstreact\studentapp
Inside that directory, you can run several commands:

  npm start
    Starts the development server.

  npm run build
    Bundles the app into static files for production.

  npm test
    Starts the test runner.

  npm run eject
    Removes this tool and copies build dependencies, configuration files
    and scripts into the app directory. If you do this, you can't go back!

We suggest that you begin by typing:

  cd studentapp
  npm start

Happy hacking!

C:\Users\EXE-GURURAJA\myfirstreact>cd studentapp
C:\Users\EXE-GURURAJA\myfirstreact\studentapp>code .
C:\Users\EXE-GURURAJA\myfirstreact\studentapp>
```
